

List of Lectures

Lecture 1	Prof. K. K. Shukla IIT BHU, Varanasi	Introduction to ML For Big Data in the Stream Mode
Lecture 2		Bit Counts, DGIM Algorithm
Lecture 3		Bloom Filters Flajolet Martin Algorithm
Lecture 4		AMS Algorithm Counting Frequent Items
Lecture 5	Dr. Anupama Ray Research Scientist, IBM India Research Labs, Bangalore, India	Deep Learning: Algorithms and Applications
Lecture 6	Dr. Chandresh Kumar Maurya Research Scientist IBM India Research Labs, Bangalore, India	Logistic Regression and Sentiment Classification
Lecture 7	Dr. Arun Chauhan, Assistant Professor IIIT Dharwad	Recommendation Systems using Microblogs
Lecture 8	Dr. V. Vijaya Saradhi Associate Professor IIT Guwahati	Dimensionality Reduction and Multiview Learning
Lecture 9	Dr. Yogita Assistant Professor NIT Meghalaya	Anomaly Detection Techniques
Lecture 10	Dr. Prakash Choudhary Assistant Professor NIT Manipur	Document Image Analysis
Lecture 11	Dr. Thoudam Doren Singh Assistant Professor NIT Silchar	Machine Learning and Deep Learning Techniques and their Applications
